How applications work

* Looked after and previously looked after children get priority
* Children with an exceptional medical or social need get next priority. This must be backed by professional evidence.
* In most cases the next priority is given to those with siblings already in school, however you MUST still complete an application form and admission is still not 100% guaranteed.
* The next criteria is usually how close to the school you live.
* Church schools and academies have individual criteria which you need to check on their websites.

- We advise you to apply for 6 schools
- We advise you to visit schools
- Check the admissions criteria of the schools you want. Some need additional paperwork.
- If you do not get any of the schools you apply for, you will be allocated a place at the nearest available school.

Catchment areas

* Applications are affected by the distance that you live from the school. Your address is recorded as your main residence and the address that any benefits are paid to and your council tax is paid from.

* Where you work, vicinity to your family/ childminder will not be considered.

* Just because you like a school or your neighbour or family member goes there - doesn't mean you will get a place.

Warnings!

* Don't apply to six schools that you live a long way away from or six selective schools. If you do not get into any of your choices you will be allocated a local school with spaces.

* You can move house to get inside a catchment area. It is still not guaranteed that you will get a place in the school. Catchment areas change every year.

* Don't assume your child will get into a school because your neighbour has.

* Don't listen to gossip or rely on historic knowledge about schools. They change! Go and visit them with your child. We can authorise this!
